

MSSC Policy - Player assessment above age group

Request for player assessment to play above age group should be liaised between coaches and include a signed parent permission form.

It should not be at the player or parent behest, as it puts unnecessary pressure on coaches who may not require that player.

As the club has a duty of care to all players, a club assessment will be the process used to determine an AWFA assessment (Age Group criteria - AWFA Ready Reckoner). It will not be requested if the club assessment is declined.
